April 1970
Lansdale Pa.

Dear Mr Cahill.

I was greatly alarmed with my family after seeing a article in the Evening Bulletin, April 28, 1970 about the wild geese which had to be shot on Mr Diehl's property. We have 8 acres in the middle of Mr Diehl's 300 acres, with a wonderful spring & brook. My family & friends all drink from this spring. We built a lodge on this property for 3 years of hard work and a man like this can destroy everything.

Please advise me how I could have the water in our spring checked. We are greatly concerned as this water is coming from the underground water table starting on our property & creating this brook. We have many friends & family who drink this water & I pray no one will get sick. This man is the worst enemy of God's earth. I understand he has 2 or 3 such lagoons & pays no income tax on them. (This should be confidential as it came from a member of his family.)

Mr Cahill, Good luck! & don't believe that nothing happened in 12 years. There was much damage. No one took a count
