Ms. Melissa Whittington (3HW41)
Remedial Project Manager
U.S. EPA Region III
841 Chestnut Building
Philadelphia, PA 19107

Dear Ms Whittington:

I wanted to let the EPA know that I am still opposed to your proposed clean-up of the Lone Landfill. I don't understand why you want to spend so many millions of dollars and risk our jobs when you have agreed that there is no risk now at the site.

Why not wait until there is some risk at the site before spending all that money? The Engineering-Science proposal makes the most sense. Th Capping will keep the waste from moving and the groundwater monitoring will let you know if there ever is a problem in the future. Please let us deci what is best for ourselves. It's our land and our futur

The Federal Government is supposed to represent

AR501977

the people. We want to have our voices heard and not have the EPA forcing us to spend millions of dollars against our will.

Sincerely,

Alice Whitmer
