April 9, 1970

Mr. Donald K. Harmeson
State Board of Health
Dover, Delaware

RE: Water Quality Control
Tybouts Landfill

Dear Mr. Harmeson:

The University of Delaware has indicated to us that when sampling the McCaffery house on Dupont Highway, on March 13, 1970, some bacterial contamination was indicated.

Would you please check this out and inform us of the results and of the possible source of this contamination.

Very truly yours,

G. W. Dutcher
Director

Uldis Karlins
Assistant County Engineer
