Dear Wayne:

Dr. Richard W. Brown
Assistant Vice President
Hammermill Paper Company
Erie, Pennsylvania 16512

This will confirm our telephone conversation of the operation of No. 3 deep well and our No. 2 deep well.

[illegible] was placed in service on September 9, 1968 [illegible] with the date that was given in [illegible] 7, 1968 which indicated September 15.

Dear Dick:

This is to acknowledge receipt of your letter dated October 10, 1968 confirming that your deep well No. 2 has been restored to operation. [illegible] to handle the total volume of spent pulping liquor. You also indicated that it will take approximately six weeks to determine the condition of deep well No. 2 and the schedule of steps you plan to take to restore it to operation. Therefore, on or before December 1, 1968, we will expect to receive a time schedule of steps for restoring well No. 2 to operation. [illegible] confirm the satisfactory operation of No. 3 well, we want to run it for a period of several months with two pumps in operation instead of one. We have been [illegible] with a series of [illegible] with the [illegible] No. 2 well pump house. [illegible] failure of the valve discs which have been [illegible] in fabrication in manufacturing by the manufacturer. They are now supplying us with a new and improved valve [illegible] which they believe [illegible] that these main [illegible] in back up [illegible] will have to run [illegible] order to [illegible]

Very truly yours,

Wayne C. Bellaman, P.E.
